

# Docks to Delta Route Map

If you'd like to do some sight-seeing out the windows on the way home, use this map to help identify some of the important agricultural sites along the Capitol Corridor Route.

Sensing something odd about the geography here? Katie Bachler, our map artist, has deliberately drawn the Central Valley, which looms large in our stories, as the Bay Area's nearby neighbor.

Some sites you might spot from the train  
(listed from North to South):

**Sacramento Fly Way**

**Campbell Soup Processing Plant  
(South of Davis)**

**SF Bay National Estuarine  
Research Reserve (Suisun)**

**WWII Ghost Fleet
